

2-DAY BASIC LANDSCAPING DESIGN PROGRAMME OUTCOMES

1.2.1 OBJECTIVES OF THE COURSE ARE AS FOLLOWS:-

- To teach basic design principles, incorporating a practical and hands on approach in applying these principles in one's own garden.
- To introduce a positive sense of purpose in the garden that you are aiming to create and an understanding of garden styles to be applied.
- To teach the basics of scale, assisting with creativity on paper.
- How to work with plant material in your own garden and combinations thereof, applying design principles learnt.
- To meet other gardeners and therefore share common problems and ideas and to participate in a two - day programme which is fun, interesting and above all informative and applicable to one's own environment.
